

MILIPOL PARIS, International business platform

Milipol Paris 2021 enabled Hexacoffre to legitimize itself with its customers, teams, and suppliers.

We also increased the size our stand by 50%. Thanks to the Milipol sales and technical teams who allowed us to be visible, efficient, and already profitable. What more could we ask for? This participation is a major success for our SME. Hexacoffre is already committed to Milipol Paris 2023. Thanks to all of you.

At each edition of Milipol Paris, it is essential for SCOPEX to participate in this leading event for homeland security and safety.

As a distributor of equipment in the EOD/C-IED, Tactical and Perimetric Protection fields, the Milipol Paris exhibition allows us to meet customers, governmental entities and official delegations from all over the world. It's always a pleasure to present them our different ranges alongside our partners.
